on you whether you understand it or not.

Its mind is of peculiar formation which scientists claim has a strange effect on its vision. The eyes of the Pacifist magnify objects appearing in its line of vision. A small army, for instance, when seen through the eyes of a Pacifist, assumes enormous proportions. It also is fond of dreaming, spending two-thirds of its time conjuring up beautiful visions of pease and plenty. It can see the lion and the lamb lying down together, eating the same preties and roast beef, and it also has a pet vision of an eagle lovingly embracing the rising sum. On these two visions the Pacifist relies for its entertainment.

The Pacifist is also a great walker, being strong for street parades, like its cousin, the Proparednessbug. It has great endurance, being able to walk for hours, provided it doesn't have to carry a gun. Careful research falls to find the exact place in the scheme of the world that the Pacifist fits in, but it probably was invented to keep newspapermen busy. Its face is very strange. It has what might be called a many-sided face, on each side there being a cheek which works on a pivot. The reasen for this arrangement is the law of the Pacifist, which demands that when one is walloped on one cheek it must turn the other. Having been walloped so many times, it is supposed to have deteriorated into a many-cheeked creature, as the original two cheeks furnished it by the almighty were all atout to

# Nuxated Iron to Make New Age of Beautiful Women and Vigorous Iron Men

Say Physicians-Quickly Puts Roses Into the Cheeks of Women and Most Astonishing Youthful Power Into the Veins of Men-It Often Increases the Strength and Endurance of Delicate, Nervous "Run-Down" Folks 200 Per Cent. in Two Weeks' Time.

A Wonderful Discovery Which Promises to Mark a New Era in Medical Science.

NEW YORK, N. Y.—Since the remarkable discovery of organic fron. Nuxated fron or Fer Nuxate," as the French call it, has taken the country by storm. It is conservatively estimated that over three million people annually are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors predict that we shall soon have a new age of far more beautiful, rosy-checked women and vigorous fron men.

Dr. Kling, a New York physician and author, when interviewed on the subject said. "There can be no vigorous fron men without fron. Pailor means ar aemia. Ansemia means fron deffetency. The skin of anaemic men and women is pulse the fleeh flabby. The muscles lack tone; the brain fage and the memory fails and often they necome weak, nervous, irritable, despondent and melarcholy. When the iron goes from the blood of women, the roses go from their checks.

"In the most common foodly of America, the starches, sugars, tably syups, candles, polished rice, white bread, eods crackers, biscuits, macaroni, spaghetti, tapiora, sage, faring, degerninated comment, he longer is fron these improvershed foods, and silly methods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave fron loss.

sood. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in tron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can walk without becoming thred. Next take two five-grain tablets of ordinary nux-ated fron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of servous, run-down people who were adding all the while double their form of organic iron, just as you would use all when your food has not enough in it. Sauer, who has studied abroad in great European medical institutions, said. "As I have said a hundred times over organic iron is the greatest of all strength builders. If people would can work or how far you can walk only throw away patent medicines and nauseous concoctious and take numated fron. I am convinced that the lives of thousands of persons might be saved who now die svery year from pneumonia, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on by luck of tron in the blood.

Not long ago a man came to me who was nearly half a century eld and asked me to give him a preliminary examination for life insurance. I was a stonished to find him with the blood pressure of a boy of twenty and as full of vigor, vim and vitality as a young man, in fact, a young man he really was, notwillistanding his asy. The secret, he said, was taking iron. Nursated from had filled him with renewed life. At 36 he was in bad bealth, at the blood of the change of the word of the walk of the word of the way of the was careworn and nearly all in. Now at 50 after taking Nurated Iron, at miracle of vitality and has fore the sale and assimilated to do you absorbed in a absolutely necessary to enable your blood to change food into living thesase, while many another has gone down in while many another has a frequency of yours.
